Naoshima Signature ~Signature Treatment Menu~

We will cleanse your feet in a footbath that contains “Sorashio”, a salt made from the seawater and sun of Naoshima. We will introduce your whole body to the aromas of pine and rosemary, which grow wild on the island, and a blended original aroma oil that conjures images of Naoshima, such as cypress, frankincense, and myrrh. We thereby invite your trip to Naoshima to be something more profound.
